Vigtig!

Læs vejledningen godt igennem før du begynder og opbevar denne til evt. senere brug.

Træ påvirkes af temperaturændringer og luftfugtighed. Derfor er det vigtigt at efterspænde dit møbel med jævne mellemrum for at opretholde sikkerheden og holdbarheden i dit barns møbel.

Daglig pleje foretages med en ren, blød klud, opvredet i lunkent vand. Husk altid at eftertørre med en ren tør klud for at fjerne det sidste fugt, undgå at anvende nogen former for rengøringsmidler eller kemikalier og skuresvampe på møblerne, da disse vil ødelægge overfladen.

Reklamationen er ikke berettiget, ved følge af fejlagtig brug af produktet eller anden skadeforvoldende adfærd.

Ved manglende eller beskadige dele må sengen ikke bruges.

Husk at gemme unbrakonøglen. Efter 2-3 ugers brug, bør alle skruer efterspændes

Sikkerhed: Sengen overholder den europæiske standard EN 1725:1998 + 747-1:2012 + A1:2015

Important!

Read the assembly instruction carefully before you start and retain for future reference.

Wood is affected by temperature changes and humidity therefore it is important to tighten your furniture regularly to maintain the safety and durability of your child's furniture.

Daily care is done with a clean, soft cloth, wrung in lukewarm water.

Remember to wipe with a clean dry cloth to remove the last moisture, avoid using any kind of chemicals and scouring pads on the furniture, as they will damage the surface.

The complaint is not justified, due to incorrect use of the product or other damaging behavior.

In case of missing or damaged parts, the bed must not be used.

Remember to save the Allen key. After 2-3 weeks of use, all screws should be retightened

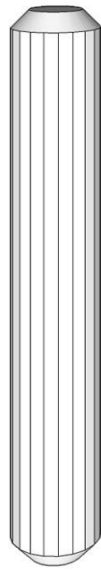

Safety: The bed complies with the European standard EN 1725: 1998 + 747-1: 2012 + A1: 2015
